Strain: Purdue (attenuated)
Classification: Coronaviridae, Alphacoronavirus, Alphacoronavirus 1
Common Name: Transmissible gastroenteritis virus
Original Source: Small intestine of infected pig with mild diarrhea
Depositor: LJ Saif, Ohio Agricultural Research and Development Center

Refer to the Certificate of Analysis for batch-specific test results.

Propagation

Propagation Host:
Swine testicular cells

Effect on Host:
CPE and plaques on porcine kidney cells. Can produce diarrhea in newborn pigs.

Growth Conditions
Temperature: 37°C
Incubation: 2 days

This is a TC-adapted, attenuated TGE virus which readily produces CPE and plaques on porcine cell cultures. Preparation is contaminated with bacteria and may be filtered through a 0.2 µm filter prior to use. Titer of filtrate will decrease by approximately 1 to 2 logs.

Key Abbreviations
CPE, cytopathic effect
MEM, minimum essential medium (Eagle)
PFU, plaque forming units
PK, pig kidney
Pr, primary
TC, tissue culture
USDA, United States Department of Agriculture

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the Biosafety in Microbiological and Biomedical Laboratories from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans.
Product Sheet

Transmissible gastroenteritis virus (ATCC® VR-763™)

Please read this FIRST

**Storage Temp.**
-70°C or colder

**Biosafety Level**
2

**Intended Use**

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

**Citation of Strain**

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Transmissible gastroenteritis virus (ATCC® VR-763™)

While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at [www.atcc.org](http://www.atcc.org).
