Or contact your local distributor

### Description

**Strain:** MR 766 (Original)  
**Classification:** *Flaviviridae*, *Flavivirus*  
**Original Source:** Blood from experimental forest sentinel rhesus monkey, Uganda, 1947  
**Depositor:** J. Casals, Rockefeller Foundation

### Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

### Propagation

**Propagation Host:**  
Suckling mouse  
**Effect on Host:**  
Paralysis and death

### Growth Conditions

**Recommendations for Infection:** Inoculate intracerebrally into suckling mice. Resuspend 20% sMb with 7.5% BSA in PBS.

**Incubation:** 5-7 days

### Comments

The depositor reports that ATCC® VR-84™ can agglutinate goose and chicken RBC, and that this strain is non-pathogenic for hamster, guinea pig, or rabbit. Further, the depositor reports that this strain can be inactivated by ether and sodium deoxycholate.

Originally deposited as Zika virus (*Arbovirus; Group B*), Strain: MR766.

### References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

### Key Abbreviations

°C, degrees Celsius  
BSA, Bovine serum albumin  
PBS, Phosphate buffered saline  
RBC, Red blood cell  
sMb, sucking mouse brain

### Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

### ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

### Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy.
