## Description

**Strain:** Original  
**Classification:** Bunyaviridae, Orthobunyavirus  
**Common Name:** Anopheles B virus  
**Original Source:**  
Suspension of Anopheles (Kerteszia) boliviensis mosquitoes caught in Colombia, 1940  
**Depositor:** EL Buescher

## Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

## Propagation

**Propagation Host:**  
suckling mouse, i.c. inoculation  
**Host of Choice:** sM (i.c.)  
**Host Range:** sM and young adults (i.c., i.n.), ME TC cells  
suckling mouse; mouse, young adult, i.c. or i.n. inoculation; mouse embryo cells  
**Effect on Host:**  
Yes, in vivo effects: Ruffled fur, hunched position, death  
Ruffled fur, hunched position, death

## Growth Conditions

Duration: 3-4 days (suckling M), 5-6 days (weanling M)

## Comments

The virus localizes and multiplies in the brain and spinal cord. Inoculation by the s.c. route elicits good antibody formation in mice but not in the guinea pig. Little or no serological cross-reactions occur with Anopheles A antigens. It is more stable in 50% glycerol than in lyophilized form but has been found viable after storage in wet-frozen state at -70° for 10 years.

### Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

### Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Anopheles B virus (ATCC® VR-86™)

product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

### Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at [www.atcc.org](http://www.atcc.org)
