

Product Sheet

***Bartonella vinsonii* (Weiss and Dasch) Brenner et al. emend. Korkick et al. (Vole agent, Cloned) (ATCC® VR-962™)**

Please read this **FIRST**

Storage Temp.
-60°C or colder

Biosafety Level
2

Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: *Bartonella vinsonii* (Weiss and Dasch) Brenner et al. emend. Korkick et al. (Vole agent, Cloned) (ATCC® VR-962™)

Description

Strain: Baker
Original Source:
Spleen of vole
Depositor: E Weiss

Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

Propagation

Propagation Host:
chicken embryo, yolk sac; L-929 cells (ATCC CCL-1); primary chicken embryo cells
Effect on Host:
Colony formation in tissue culture

Growth Conditions
Incubation: 1-2 days, 35°C

Comments

Distinguished from *R. quintana* by somewhat different antigenic specificity and PAGE migration patterns, and 31-42% DNA-DNA hybridization. Does not require added CO₂ for growth, utilizes glutamate as sole substrate (*R. quintana* requires another substrate for the transport of glutamate), ornithine decarboxylase is inducible, whereas it is constitutive in *R. quintana*. In contrast to *R. quintana* it tends to autoagglutinate in liquid media, but this may be a strain characteristic.

References

References and other information relating to this product are available online at www.atcc.org.

Key Abbreviations

CE, chicken embryo
DNA, deoxyribonucleic acid
L, liver
Pr, primary
TC, tissue culture

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the *Biosafety in Microbiological and Biomedical Laboratories* from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

Disclaimers

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet,
