

Product Sheet

# Influenza A virus (H1N1) (ATCC® VR-98™)

Please read this FIRST

---

## Intended Use

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

## Citation of Strain

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Influenza A virus (H1N1) (ATCC® VR-98™)

## Description

**Strain:** A/Mal/302/54

**Classification:** *Orthomyxoviridae, Influenzavirus A*

**Original Source:**

patient in Malaya, 1954

**Depositor:** WR Dowdle, RQ Robinson

## Batch-Specific Information

Refer to the Certificate of Analysis for batch-specific test results.

## Propagation

**Propagation Host:**

10 to 11 days old specific pathogen free chicken embryo with intra-allantoic inoculation

**Recommended Host:** SPF CE (10 to 11 day, intra allantoic)

**Effect on Host:**

Yes, in vitro effects: Allantoic fluid agglutinates chicken RBC  
hemagglutinates chicken RBC

**Growth Conditions**

2 to 3 days at 33-34°C with humidity

## References

References and other information relating to this product are available online at [www.atcc.org](http://www.atcc.org).

## Key Abbreviations

AI, allantoic

C, chicken

CE, chicken embryo

CEID<sub>50</sub> (CEID[50]), The Chicken Embryo Infectious Dose 50% endpoint is the 50% infectious endpoint in chicken embryo. The CEID<sub>50</sub> is the dilution of virus that under the conditions of the assay can be expected to infect 50% of the chicken embryos inoculated, just as a Lethal Dose 50% (LD<sub>50</sub>) is expected to kill half of the animals exposed. A reciprocal of the dilution required to yield the CEID<sub>50</sub> provides a measure of the titer (or infectivity) of a virus preparation.

CRBC, chicken red blood cells

GP, guinea pig

H, hemagglutinin

HA, hemagglutination

HAI, hemagglutination inhibition

i.a., intra allantoic

M, mouse

mL, milliliter

MkK, monkey kidney

N, neuraminidase

RBC, red blood cells

SPF, specific pathogen free

WHO, World Health Organization

Biosafety Level  
**2**

**Intended Use**

This product is intended for research use only. It is not intended for any animal or human therapeutic or diagnostic use.

**Citation of Strain**

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Influenza A virus (H1N1) (ATCC® VR-98™)

The viability of ATCC® products is warranted for 30 days from the date of shipment, and is valid only if the product is stored and cultured according to the information included on this product information sheet. ATCC lists the media formulation that has been found to be effective for this strain. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this strain. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

**Disclaimers**

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of strains on deposit, ATCC is not liable for damages arising from the misidentification or misrepresentation of cultures.

Please see the enclosed Material Transfer Agreement (MTA) for further details regarding the use of this product. The MTA is also available on our Web site at [www.atcc.org](http://www.atcc.org)

Additional information on this culture is available on the ATCC web site at [www.atcc.org](http://www.atcc.org).
