An ampoule containing viable cells suspended in cryoprotectant.

To thaw a frozen ampoule, place in a...

Immediately after thawing, wipe down ampoule with 70% ethanol and aseptically transfer at least 50...

Incubate the inoculum/strain at the temperature and conditions recommended.

Packaged in dry ice should either be thawed immediately or stored in liquid nitrogen.

2.4°C

Biosafety Level

Inspect for growth of the inoculum/strain regularly for up to 4 weeks. The time necessary for...

This product is intended for research use only. It is not...

If use of this culture results in a scientific publication, it should be cited in that manuscript in the following manner: Saccharomycopsis fibuligera (ATCC® 2082™)

If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for damages arising from

While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.

This product is intended for laboratory research purposes only. It is not intended for use in humans. While ATCC uses reasonable efforts to include accurate and up-to-date information on this product sheet, ATCC makes no warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. ATCC does not warrant that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, and use. ATCC is not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to insure authenticity and reliability of materials on deposit, ATCC is not liable for damages arising from

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the current publication of the Biosafety in Microbiological and Biomedical Laboratories from the U.S. Department of Health and Human Services Centers for Disease Control and Prevention and National Institutes for Health.

ATCC Warranty

ATCC® products are warranted for 30 days from the date of shipment, and this warranty is valid only if the product is stored and handled according to the information included on this product information sheet. If the ATCC® product is a living cell or microorganism, ATCC lists the media formulation that has been found to be effective for this product. While other, unspecified media may also produce satisfactory results, a change in media or the absence of an additive from the ATCC recommended media may affect recovery, growth and/or function of this product. If an alternative medium formulation is used, the ATCC warranty for viability is no longer valid.
